

## When swimming at the Ridley High School Pool

There is a student at Ridley High School who is allergic to latex and changes have been made to ensure the safety of the student when in and around the school.

Below is a summary of our policies/procedures to maintain the latex-free environment at the High School.

Parents/Coaches/Swimmers please be aware of this when swimming at the High School. This is a negotiated deal (in lieu of silicon-only caps). Please do your utmost to ensure compliance.

- 1) Nobody is to leave the Natatorium wearing or carrying his or her bathing cap or goggles.
- 2) Anytime somebody is opening a new cap or goggles, it must be done in the Swimming locker room over the sink or in the shower & immediately rinsed down for powder removal.
- 3) When carrying caps/goggles to school in their school bag and storing in their locker during the day, caps & goggles should be stored in a zip-lock bag.

We build strong kids, strong families, strong communities.
